

Happy in His  
loving care

## St Augustine Webster Catholic Voluntary Academy

### ICT and Internet Acceptable Use Policy

Date :	September 2023
To be reviewed:	2 years
Policy Holder	Head teacher

#### Mission Statement Links

Developing an awareness of God's love and presence in our lives	Meeting the emotional needs of all to grow and become valued members of society
Developing a positive set of attitudes, values and beliefs allowing us all to make sound and moral judgements in the light of personal commitment to the Lord, Jesus Christ	Providing high quality learning experiences and achieve high standards in all we do
Fostering caring relationships with the school community supporting our links with home and parish	Providing a stimulating and well cared for environment for all
Aiming to always do our very best	Valuing and celebrating everyone's work and contributions
Being respectful to each other and take pride in our school	Being friends with Jesus through prayer, worship and liturgy

#### Introduction

Information and communications technology (ICT) is an integral part of the way our school works, and is a critical resource for pupils, staff (including the senior leadership team), governors, volunteers and visitors. It supports teaching and learning, and the pastoral and administrative functions of the school.

However, the ICT resources and facilities our school uses could also pose risks to data protection, online safety and safeguarding.

This policy aims to:

- Set guidelines and rules on the use of school ICT resources for staff, pupils, parents/carers and governors
- Establish clear expectations for the way all members of the school community engage with each other online
- Support the school's policies on data protection, online safety and safeguarding
- Prevent disruption that could occur to the school through the misuse, or attempted misuse, of ICT systems
- Support the school in teaching pupils safe and effective internet and ICT use

This policy covers all users of our school's ICT facilities, including governors, staff, pupils, volunteers, contractors and visitors. Breaches of this policy may be dealt with under our Behaviour, Pupil Mobile Phone Exclusion, Staff Code of Conduct or Governor Code of Conduct Policies.

#### Relevant legislation and guidance

This policy refers to, and complies with, the following legislation and guidance:

- [Data Protection Act 2018](#)
- The UK General Data Protection Regulation (UK GDPR) – the EU GDPR was incorporated into UK legislation, with some amendments, by [The Data Protection, Privacy and Electronic Communications \(Amendments etc\) \(EU Exit\) Regulations 2020](#)
- [Computer Misuse Act 1990](#)
- [Human Rights Act 1998](#)
- [The Telecommunications \(Lawful Business Practice\) \(Interception of Communications\) Regulations 2000](#)
- [Education Act 2011](#)
- [Freedom of Information Act 2000](#)
- [Education and Inspections Act 2006](#)
- [Keeping Children Safe in Education 2023](#)
- [Searching, screening and confiscation: advice for schools 2022](#)
- [National Cyber Security Centre \(NCSC\): Cyber Security for Schools](#)

- [Education and Training \(Welfare of Children\) Act 2021](#)
- UK Council for Internet Safety (et al.) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)
- [Meeting digital and technology standards in schools and colleges](#)

## Definitions

- **ICT facilities:** all facilities, systems and services including, but not limited to, network infrastructure, desktop computers, laptops, tablets, phones, music players or hardware, software, websites, web applications or services, and any device system or service that may become available in the future which is provided as part of the school's ICT service.
- **Users:** anyone authorised by the school to use the school's ICT facilities, including governors, staff, pupils, volunteers, contractors and visitors
- **Personal use:** any use or activity not directly related to the users' employment, study or purpose agreed by an authorised user
- **Authorised personnel:** employees authorised by the school to perform systems administration and/or monitoring of the ICT facilities
- **Materials:** files and data created using the school's ICT facilities including but not limited to documents, photos, audio, video, printed output, web pages, social networking sites and blogs
- See Appendix 6 for a glossary of cyber security terminology.

## Unacceptable use

- Using the school's ICT facilities to breach intellectual property rights or copyright
- Using the school's ICT facilities to bully or harass someone else, or to promote unlawful discrimination
- Breaching the school's policies or procedures
- Any illegal conduct, or statements which are deemed to be advocating illegal activity
- Online gambling, inappropriate advertising, phishing and/or financial scams
- Accessing, creating, storing, linking to or sending material that is pornographic, offensive, obscene or otherwise inappropriate or harmful
- Consensual and non-consensual sharing of nude and semi-nude images and/or videos and/or livestreams
- Activity which defames or disparages the school, or risks bringing the school into disrepute
- Sharing confidential information about the school, its pupils, or other members of the school community
- Connecting any device to the school's ICT network without approval from authorised personnel
- Setting up any software, applications or web services on the school's network without approval by authorised personnel, or creating or using any programme, tool or item of software designed to interfere with the functioning of the school's ICT facilities, accounts or data
- Gaining, or attempting to gain, access to restricted areas of the network, or to any password-protected information, without approval from authorised personnel
- Allowing, encouraging or enabling others to gain (or attempt to gain) unauthorised access to the school's ICT facilities
- Causing intentional damage to the school's ICT facilities
- Removing, deleting or disposing of the school's ICT equipment, systems, programmes or information without permission from authorised personnel
- Causing a data breach by accessing, modifying, or sharing data (including personal data) to which a user is not permitted by authorised personnel to have access, or without authorisation
- Using inappropriate or offensive language
- Promoting a private business, unless that business is directly related to the school
- Using websites or mechanisms to bypass the school's filtering or monitoring mechanisms
- Engaging in content or conduct that is radicalised, extremist, racist, antisemitic or discriminatory in any other way
- Using AI tools and generative chatbots (such as ChatGPT and Google Bard) inappropriately **(This will be reviewed constantly as AI tools develop):**
  - During assessments, including internal and external assessments, and coursework
  - To present homework or class assignments, where AI-generated text or imagery is presented as their own work

## Exceptions from unacceptable use

Where the use of school ICT facilities (on the school premises and/or remotely) is required for a purpose that would otherwise be considered an unacceptable use, exemptions to the policy may be granted at the headteacher's discretion. To do this, permission from the headteacher or Designated Safeguarding Lead must be sought and agreed to in advance.

Under guidance and supervision from their class teacher, pupils may use AI tools and generative chatbots:

- As a research tool to help them find out about new topics and ideas
- When specifically studying and discussing AI in schoolwork, for example in IT lessons or art homework about AI-generated images. All AI-generated content must be properly attributed

## Sanctions

Pupils and staff who engage in any of the unacceptable activities listed above may face disciplinary action in line with the school's policies on Behaviour, Pupil Mobile Phone Exclusion, Staff Code of Conduct or Governor Code of Conduct.

## Monitoring and filtering of the school network and use of ICT facilities

To safeguard and promote the welfare of children and provide them with a safe environment to learn, the school reserves the right to filter and monitor the use of its ICT facilities and network. This includes, but is not limited to, the filtering and monitoring of:

- Internet sites visited
- Bandwidth usage
- Email accounts
- Telephone calls
- User activity/access logs
- Any other electronic communications

Only authorised ICT personnel may filter, inspect, monitor, intercept, assess, record and disclose the above, to the extent permitted by law.

***In line with the Our Lady of Lourdes CMAT policies and procedures, the school uses Firewalls and Filtering services provided by Fortinet. Fortinet are members of the Internet Watch Foundation and take their lists from multiple sources including IWF and CITRU for blocking.***

***A weekly 'Filtering and Monitoring' report is provided by the Fortinet system to the Designated Safeguarding Lead. This report is discussed with the Trust Network and support Manager where appropriate.***

***All staff have had relevant and up to date Cyber Security training and are aware of their responsibilities in terms of maintaining 'Filtering and Monitoring Standards' in line with the school and trust policies.***

## Filtering and monitoring standards – responsibilities of all school staff

In line with the first standard, system management, see below our key personnel within St Augustine Webster Catholic Voluntary Academy.

- The lead individual within the Senior Leadership Team (SLT) is David Sidaway who you should contact with any queries relating to this topic.
- In line with the safeguarding policy, any safeguarding concern should be immediately directed to the Designated Safeguarding Lead (DSL), Kirsty Matthews
- If you have queries regarding the implementation of the monitoring and filtering systems, please discuss this with our IT Network and Support Manager, Chris Cook.
- All staff in the school have responsibilities to ensure the standards are effectively implemented and are expected to:
  1. provide effective supervision of pupils when using school devices. This includes, 'physically' monitor children when they are using ICT equipment (moving around the space, visibly checking what pupils are doing).
  2. maintain awareness of how devices are being used by students.
  3. know how to report and record any concern where you have witnessed or suspect harmful content has been accessed.
  4. approach your IT lead if you are unsure whether the filtering system is working successfully on your school device.
  5. inform the SLT and IT lead if you can access unsuitable material.
  6. notify the named leads if you are teaching topics which may create unusual activity or alerts.
  7. discuss any unreasonable restrictions that affect teaching, learning or administrative tasks with your named leads.
  8. promptly report failure or abuse of the system.

9. report any abbreviations or misspellings that allow access to restricted material.
10. be aware of the online safety, acceptable use and safeguarding policies.

See Appendix 5 for further information on 'Filtering and monitoring standards – responsibilities for all school staff.' (including the filtering and monitoring flow chart)

The school monitors ICT use to:

- To maintain robust safeguarding procedures
- Obtain information related to school business
- Investigate compliance with school policies, procedures and standards
- Ensure effective school and ICT operation
- Conduct training or quality control exercises
- Prevent or detect crime
- Comply with a subject access request, Freedom of Information Act request, or any other legal obligation

Our governing board is responsible for making sure that:

- The school meets the DfE's [filtering and monitoring standards](#)
- Appropriate filtering and monitoring systems are in place
- Staff are aware of those systems and trained in their related roles and responsibilities
  - For the leadership team and relevant staff, this will include how to manage the processes and systems effectively and how to escalate concerns
- It regularly reviews the effectiveness of the school's monitoring and filtering systems

The school's designated safeguarding lead (DSL) will take lead responsibility for understanding the filtering and monitoring systems and processes in place.

Where appropriate, staff may raise concerns about monitored activity with the school's DSL and Trust IT Network and Support Manager.

## **Staff (including governors, volunteers and contractors)**

### **Access to school ICT facilities and materials**

The Our Lady of Lourdes CMAT IT Network and Support Manager manages access to the school's ICT facilities and materials for school staff. That includes, but is not limited to:

- Computers, tablets, mobile phones and other devices
- Access permissions for certain programmes or files

Staff will be provided with unique login/account information and passwords that they must use when accessing the school's ICT facilities.

Staff who have access to files that they are not authorised to view or edit, or who need their access permissions updated or changed, should contact the IT and Network and Support Manager (via the school office).

### **Use of phones and email**

The school provides each member of staff with an email address.

This email account should be used for work purposes only. Staff should enable multi-factor authentication on their email account(s).

All work-related business should be conducted using the email address the school has provided.

Staff must not share their personal email addresses with parents/carers and pupils and must not send any work-related materials using their personal email account.

Staff must take care with the content of all email messages, as incorrect or improper statements can give rise to claims for discrimination, harassment, defamation, breach of confidentiality or breach of contract.

Email messages are required to be disclosed in legal proceedings or in response to requests from individuals under the Data Protection Act 2018 in the same way as paper documents. Deletion from a user's inbox does not mean that an email cannot be recovered for the purposes of disclosure. All email messages should be treated as potentially retrievable.

Staff must take extra care when sending sensitive or confidential information by email. Any attachments containing sensitive or confidential information should be encrypted so that the information is only accessible by the intended recipient.

If staff receive an email in error, the sender should be informed and the email deleted. If the email contains sensitive or confidential information, the user must not make use of that information or disclose that information.

If staff send an email in error that contains the personal information of another person, they must inform the head teacher immediately and follow our data breach procedure.

Staff must not give their personal phone number(s) to parents/carers or pupils. Staff must use phones provided by the school to conduct all work-related business.

School phones must not be used for personal matters.

Staff who are provided with mobile phones as equipment for their role must abide by the same rules for ICT acceptable use as set out in section 4.

## **Personal use**

Staff are permitted to occasionally use school ICT facilities for personal use, subject to certain conditions set out below. This permission must not be overused or abused. The head teacher may withdraw or restrict this permission at any time and at their discretion.

Personal use is permitted provided that such use:

- Does not take place during teaching/pupil contact time
- Does not constitute 'unacceptable use'
- Takes place when no pupils are present
- Does not interfere with their jobs, or prevent other staff or pupils from using the facilities for work or educational purposes

Staff may not use the school's ICT facilities to store personal, non-work-related information or materials (such as music, videos or photos).

Staff should be aware that use of the school's ICT facilities for personal use may put personal communications within the scope of the school's ICT monitoring activities (see section 5.5). Where breaches of this policy are found, disciplinary action may be taken.

Staff are also permitted to use their personal devices (such as mobile phones or tablets) in line with the school's Staff code of Conduct.

Staff should be aware that personal use of ICT (even when not using school ICT facilities) can impact on their employment by, for instance, putting personal details in the public domain, where pupils and parents/carers could see them.

Staff should take care to follow the school's guidelines on use of social media (see appendix 1) and use of email (see relevant section in this policy) to protect themselves online and avoid compromising their professional integrity.

## **Personal and social media accounts**

Members of staff should make sure their use of social media, either for work or personal purposes, is always appropriate.

The school has guidelines for staff on appropriate security settings for Facebook accounts (see appendix 1).

## **School Social Media Accounts**

The school has an official Twitter and Facebook accounts, managed by the head teacher. Staff members who have not been authorised to manage, or post to, the account, must not access, or attempt to access, the account.

The school has guidelines for what may and must not be posted on its social media accounts. Those who are authorised to manage, or post to, the account must make sure they always abide by these guidelines.

## **Pupils**

Access to ICT Facilities

- Laptops and iPads are available to pupils only under the supervision of staff.
- Specialist ICT equipment such as data loggers etc. must also be used under supervision from staff.
- Pupils will be provided with an account linked to the school's Office 365 platform that can be accessed from any internet enabled device.
- Pupils will also be provided with accounts for other platforms (Reading Plus, Reading Eggs, Mathletics, TT Rockstars, Learning Village) as appropriate.

## Search and deletion

Under the Education Act 2011, the headteacher, and any member of staff authorised to do so by the headteacher, can search pupils and confiscate their mobile phones, computers or other devices that the authorised staff member has reasonable grounds for suspecting:

- Poses a risk to staff or pupils, **and/or**
- Is identified in the school Behaviour Policy as a banned item for which a search can be carried out, **and/or**
- Is evidence in relation to an offence

This includes, but is not limited to:

- Pornography
- Abusive messages, images or videos
- Indecent images of children
- Evidence of suspected criminal behaviour (such as threats of violence or assault)

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- Assess how urgent the search is and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from the head teacher or DSL.
- Explain to the pupil why they are being searched, and how and where the search will happen, and give them the opportunity to ask questions about it
- Seek the pupil's co-operation

The authorised staff member should:

- Inform the DSL (or deputy) of any searching incidents where they had reasonable grounds to suspect a pupil was in possession of a banned item. (See school Behaviour/Exclusion Policies)
- Involve the DSL (or deputy) without delay if they believe that a search has revealed a safeguarding risk

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on a device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on a device, the staff member should only do so if they reasonably suspect that the data has been, or could be, used to:

- Cause harm, **and/or**
- Undermine the safe environment of the school or disrupt teaching, **and/or**
- Commit an offence

If inappropriate material is found on the device, it is up to head teacher to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding whether there is a good reason to erase data or files from a device, staff members will consider whether the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as is reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- They reasonably suspect that its continued existence is likely to cause harm to any person, **and/or**
- The pupil and/or the parent refuses to delete the material themselves

If a staff member **suspects** a device **may** contain an indecent image of a child (also known as a nude or semi-nude image), they will:

- **Not** view the image
- **Not** copy, print, share, store or save the image
- Confiscate the device and report the incident to the DSL (or deputy) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [searching, screening and confiscation](#) and the UK Council for Internet Safety (UKCIS) et al.'s guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

- The DfE's latest guidance on [searching, screening and confiscation](#)
- UKCIS et al.'s guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)
- Our Behaviour Policy

Any complaints about searching for, or deleting, inappropriate images or files on pupils' devices will be dealt with through the school complaints procedure.

### **Unacceptable use of ICT and the internet outside of school**

The school will sanction pupils, in line with the Behaviour Policy, if a pupil engages in any of the following **at any time** (even if they are not on school premises):

- Using ICT or the internet to breach intellectual property rights or copyright
- Using ICT or the internet to bully or harass someone else, or to promote unlawful discrimination
- Breaching the school's policies or procedures
- Any illegal conduct, or making statements which are deemed to be advocating illegal activity
- Accessing, creating, storing, linking to or sending material that is pornographic, offensive, obscene or otherwise inappropriate
- Consensual or non-consensual sharing of nude and semi-nude images and/or videos and/or livestreams (also known as sexting or youth produced sexual imagery)
- Activity which defames or disparages the school, or risks bringing the school into disrepute
- Sharing confidential information about the school, other pupils, or other members of the school community
- Gaining or attempting to gain access to restricted areas of the network, or to any password-protected information, without approval from authorised personnel
- Allowing, encouraging, or enabling others to gain (or attempt to gain) unauthorised access to the school's ICT facilities
- Causing intentional damage to the school's ICT facilities or materials
- Causing a data breach by accessing, modifying, or sharing data (including personal data) to which a user and/or those they share it with are not supposed to have access, or without authorisation
- Using inappropriate or offensive language

## **Parents/Carers**

### **Access to ICT facilities**

Parents/carers do not have access to the school's ICT facilities as a matter of course.

However, parents/carers working for, or with, the school in an official capacity (for instance, as a volunteer or as a member of the PTA) may be granted an appropriate level of access or be permitted to use the school's facilities at the headteacher's discretion.

Where parents/carers are granted access in this way, they must abide by this policy as it applies to staff.

### **Communicating with or about the school online**

We believe it is important to model for pupils, and help them learn, how to communicate respectfully with, and about, others online.

Parents/carers play a vital role in helping model this behaviour for their children, especially when communicating with the school through our website and social media channels.

We ask parents/carers to sign the agreement in appendix 2.

### **Communicating with parents/carers about pupil activity**

The school will ensure that parents and carers are made aware of any online activity that their children are being asked to carry out.

When we ask pupils to use websites or engage in online activity, we will communicate the details of this to parents/carers in the same way that information about homework tasks is shared.

Staff will let parents/carers know which (if any) person or people from the school pupils will be interacting with online, including the purpose of the interaction.

Parents/carers may seek any support and advice from the school to ensure a safe online environment is established for their child.

## **Data security**

The school is responsible for making sure it has the appropriate level of security protection and procedures in place to safeguard its systems, staff and learners. It therefore takes steps to protect the security of its computing resources, data and user accounts. The effectiveness of these procedures is reviewed periodically to keep up with evolving cyber-crime technologies.

Staff, pupils, parents/carers and others who use the school's ICT facilities should use safe computing practices at all times. We aim to meet the cyber security standards recommended by the Department for Education's guidance on [digital and technology standards in schools and colleges](#), including the use of:

- Firewalls
- Security features
- User authentication and multi-factor authentication
- Anti-malware software

### **Passwords**

All users of the school's ICT facilities should set strong passwords for their accounts and keep these passwords secure.

Users are responsible for the security of their passwords and accounts, and for setting permissions for accounts and files they control.

Members of staff or pupils who disclose account or password information may face disciplinary action. Parents, visitors or volunteers who disclose account or password information may have their access rights revoked.

### **Software updates, firewalls and anti-virus software**

All the school's ICT devices that support software updates, security updates and anti-virus products will have these installed and be configured to perform such updates regularly or automatically.

Users must not circumvent or make any attempt to circumvent the administrative, physical and technical safeguards we implement and maintain to protect personal data and the school's ICT facilities.

Any personal devices using the school's network must all be configured in this way.

### **Data protection**

All personal data must be processed and stored in line with data protection regulations and the school's Data Protection Policy which can be found on the school website.

### **Access to facilities and materials**

All users of the school's ICT facilities will have clearly defined access rights to school systems, files and devices.

These access rights are managed by the Our Lady of Lourdes CMAT IT Network and Support Manager.

Users should not access, or attempt to access, systems, files or devices to which they have not been granted access. If access is provided in error, or if something a user should not have access to is shared with them, they should alert the head teacher immediately.

Users should always log out of systems and lock their equipment when they are not in use to avoid any unauthorised access. Equipment and systems should always be logged out of and shut down completely at the end of each working day.

### **Encryption**

The school makes sure that its devices and systems have an appropriate level of encryption.

School staff may only use personal devices (including computers and USB drives) to access school data, work remotely, or take personal data (such as pupil information) out of school if they have been specifically authorised to do so by the headteacher.

Use of such personal devices will only be authorised if the devices have appropriate levels of security and encryption, as defined by the Our Lady of Lourdes CMAT IT Network and Support Manager.

### **Protection from cyber attacks**

Please see the glossary (appendix 6) to help you understand cyber security terminology.

The school will:

- Work with governors and the Our Lady of Lourdes IT department to make sure cyber security is given the time and resources it needs to make the school secure
- Provide annual training for staff (and include this training in any induction for new starters, if they join outside of the school's annual training window) on the basics of cyber security, including how to:
  - Check the sender address in an email
  - Respond to a request for bank details, personal information or login details
  - Verify requests for payments or changes to information

- Make sure staff are aware of its procedures for reporting and responding to cyber security incidents
- Investigate whether our IT software needs updating or replacing to be more secure
- Not engage in ransom requests from ransomware attacks, as this would not guarantee recovery of data
- Put controls in place that are:
  - **Proportionate:** the school will verify this using a third-party audit (such as [360 degree safe](#)) at least annually, to objectively test that what it has in place is effective
  - **Multi-layered:** everyone will be clear on what to look out for to keep our systems safe
  - **Up to date:** with a system in place to monitor when the school needs to update its software
  - **Regularly reviewed and tested:** to make sure the systems are as effective and secure as they can be
- Back up critical data daily and store these backups on the cloud system.
- Delegate specific responsibility for maintaining the security of our management information system (MIS) to Adept and the Our Lady of Lourdes CMAT IT Network and Support Manager
- Make sure staff:
  - Dial into our network using a virtual private network (VPN) when working from home
  - Enable multi-factor authentication where they can, on things like school email accounts
  - Store passwords securely using a password manager
- Make sure ICT staff conduct regular access reviews to make sure each user in the school has the right level of permissions and admin rights
- Have a firewall in place that is switched on
- Check that its supply chain is secure, for example by asking suppliers about how secure their business practices are and checking if they have the [Cyber Essentials](#) certification
- Develop, review and test an incident response plan with the IT department including, for example, how the school will communicate with everyone if communications go down, who will be contacted and when, and who will notify [Action Fraud](#) of the incident. This plan will be reviewed and tested every 6 months, and after a significant event has occurred, using the NCSC's ['Exercise in a Box'](#)
- Work with the Our Lady of Lourdes CMAT to see what it can offer the school regarding cyber security, such as advice on which service providers to use or assistance with procurement

## Internet Access

The school's wireless internet connection is secure.

- ***In line with the Our Lady of Lourdes CMAT policies and procedures, the school uses Firewalls and Filtering services provided by Fortinet. Fortinet are members of the Internet Watch Foundation and take their lists from multiple sources including IWF and CITRU for blocking.***
- ***A weekly 'Filtering and Monitoring' report is provided by the Fortinet system to the Designated Safeguarding Lead. This report is discussed with the Trust Network and support Manager where appropriate.***

We are aware that filtering is not 'fool proof' and therefore:

- ***All staff have had relevant and up to date Cyber Security training and are aware of their responsibilities in terms of maintaining 'Filtering and Monitoring Standards' in line with the school and trust policies.***
- ***All staff know what to do if sites have been filtered in error.***
- ***All staff know how and who to report to if inappropriate sites have been accessed.***

## Pupils

Pupils will only access the school Wi-Fi through school approved devices. No personal devices will be granted access to the Wi-Fi.

## Parents/carers and visitors

Parents/carers and visitors to the school will not be permitted to use the school's Wi-Fi unless specific authorisation is granted by the headteacher.

The headteacher will only grant authorisation if:

- Parents/carers are working with the school in an official capacity (e.g. as a volunteer or as a member of the PTA)
- Visitors need to access the school's Wi-Fi to fulfil the purpose of their visit (for instance, to access materials stored on personal devices as part of a presentation or lesson plan)

Staff must not give the Wi-Fi password to anyone who is not authorised to have it. Doing so could result in disciplinary action.

## **Monitoring and Review**

The head teacher, designated safeguarding Lead and the Our Lady of Lourdes CMAT IT Network and Support Manager will monitor the implementation of this policy, including ensuring it is updated to reflect the needs and circumstances of the school.

## **Related Policies**

This policy should be read alongside the school's policies on:

- Child Protection and Safeguarding
- Behaviour
- Exclusion
- E Safety
- Staff Code of Conduct
- Governor Code of Conduct
- Pupil Mobile Phone
- Data protection
- Remote education

## Appendix 1: Social media guidance for staff

### Do not accept friend requests from pupils on social media

#### 10 rules for school staff on social media

1. Change your display name – use your first and middle name, use a maiden name, or put your surname backwards instead
2. Change your profile picture to something unidentifiable, or if you don't, make sure that the image is professional
3. Check your privacy settings regularly
4. Be careful about tagging other staff members in images or posts
5. Don't share anything publicly that you wouldn't be happy showing your pupils
6. Don't use social media sites during school hours
7. Don't make comments about your job, your colleagues, our school or your pupils online – once it's out there, it's out there
8. Don't associate yourself with the school on your profile (e.g. by setting it as your workplace, or by 'checking in' at a school event)
9. Don't link your work email address to your social media accounts. Anyone who has this address (or your personal email address/mobile number) can find you using this information
10. Consider uninstalling the Facebook app from your phone. The app recognises Wi-Fi connections and makes friend suggestions based on who else uses the same Wi-Fi connection (such as parents or pupils)

---

#### Check your privacy settings

- Change the visibility of your posts and photos to '**Friends only**', rather than 'Friends of friends'. Otherwise, pupils and their families may still be able to read your posts, see things you've shared and look at your pictures if they're friends with anybody on your contacts list
- Don't forget to check your **old posts and photos** – go to [bit.ly/2MdQXMN](https://bit.ly/2MdQXMN) to find out how to limit the visibility of previous posts
- The public may still be able to see posts you've '**liked**', even if your profile settings are private, because this depends on the privacy settings of the original poster
- **Google your name** to see what information about you is visible to the public
- Prevent search engines from indexing your profile so that people can't **search for you by name** – go to [bit.ly/2zMdVht](https://bit.ly/2zMdVht) to find out how to do this
- Remember that **some information is always public**: your display name, profile picture, cover photo, user ID (in the URL for your profile), country, age range and gender

#### What to do if ...

##### A pupil adds you on social media

- In the first instance, ignore and delete the request. Block the pupil from viewing your profile
- Check your privacy settings again, and consider changing your display name or profile picture
- If the pupil asks you about the friend request in person, tell them that you're not allowed to accept friend requests from pupils and that if they persist, you'll have to notify senior leadership and/or their parents/carers. If the pupil persists, take a screenshot of their request and any accompanying messages
- Notify the senior leadership team or the headteacher about what's happening

##### A parent/carers adds you on social media

- It is at your discretion whether to respond. Bear in mind that:
- Responding to 1 parent/carer's friend request or message might set an unwelcome precedent for both you and other teachers at the school
- Pupils may then have indirect access through their parent/carer's account to anything you post, share, comment on or are tagged in
- If you wish to decline the offer or ignore the message, consider drafting a stock response to let the parent/carer know that you're doing so

**You're being harassed on social media, or somebody is spreading something offensive about you**

- **Do not** retaliate or respond in any way
- Save evidence of any abuse by taking screenshots and recording the time and date it occurred
- Report the material to Facebook or the relevant social network and ask them to remove it
- If the perpetrator is a current pupil or staff member, our mediation and disciplinary procedures are usually sufficient to deal with online incidents
- If the perpetrator is a parent/carer or other external adult, a senior member of staff should invite them to a meeting to address any reasonable concerns or complaints and/or request they remove the offending comments or material
- If the comments are racist, sexist, of a sexual nature or constitute a hate crime, you or a senior leader should consider contacting the police

## Appendix 2: Acceptable use: agreement for parents and carers

Happy in His loving care

### Acceptable use of the internet: agreement for parents and carers

**Name of parent/carer:**

**Name of child:**

Online channels are an important way for parents/carers to communicate with, or about, our school.

The school uses the following channels:

- Our Twitter/Facebook page
- Email/Arbor/Piota messaging groups for parents (for school announcements and information)
- Tapestry (EYFS only)

Parents/carers also set up independent channels to help them stay on top of what's happening in their child's class. For example, class/year Facebook groups, email groups, or chats (through apps such as WhatsApp).

When communicating with the school via official communication channels, or using private/independent channels to talk about the school, I will:

- Be respectful towards members of staff, and the school, at all times.
- Be respectful of other parents/carers and children.
- Direct any complaints or concerns through the school's official channels, so they can be dealt with in line with the school's complaints procedure.

I will not:

- Use private groups, the school's Twitter/Facebook page, or personal social media to complain about or criticise members of staff. This is not constructive and the school can't improve or address issues unless they are raised in an appropriate way.
- Use private groups, the school's Facebook page, or personal social media to complain about, or try to resolve, a behaviour issue involving other pupils. I will contact the school and speak to the appropriate member of staff if I'm aware of a specific behaviour issue or incident.
- Upload or share photos or videos on social media of any child other than my own unless I have the permission of the other children's parents/carers.
- Use Google and other review services for any of the reasons listed under 'I will not'

## Appendix 3 : Acceptable use: agreement for pupils

Happy in His loving care

### Acceptable use of the school's ICT facilities and internet: agreement for pupils and parents/carers

Name of pupil:

**When I use the school's ICT facilities (like computers and equipment) and go on the internet in school,**

- I will only use equipment when I have asked and I am being supervised by a responsible adult.
- I will stick to school rules.
- I will take care when using the school IT equipment and use it responsibly. And will not deliberately damage it.
- I will only try to access appropriate sites.
- I will keep my passwords private unless I need to share them with a trusted adult.
- I will inform an adult if I see or receive any unpleasant text, images or messages.
- I will not interfere with anyone else's passwords, settings or files on the computer.
- I will be careful when downloading material from the internet or using material I have brought into school because I understand the risks from virus infections.
- Any work I upload to the internet will be my own.
- I know I need permission to take someone's photograph or to video them.
- Any messages I post online or send in an email will be polite and responsible.
- I will not send or forward messages or create material which is deliberately intended to upset other people.
- I know I must take care about giving away my personal information and contacting people I do not know when using the internet.
- I will only bring my personal devices such as smart watches and mobile phones into school with the consent of my teacher. I will follow the school rules on storage of my devices during the school day.
- I may use AI tools and generative chatbots (such as ChatGPT and Google Bard) under direction/supervision from a teacher and know that it can't be used for assessments or to present homework or class assignments as my own.

***I understand that the school will check the websites I visit and how I use the school's computers and equipment. This is so that they can help keep me safe and make sure I'm following the rules. And that failure to follow rules may result in sanctions from the Behaviour Policy being given (including not being able to use equipment)***

***I will tell a teacher or a member of staff I know immediately if I find anything on a school computer or online that upsets me, or that I know is mean or wrong.***

***I understand that the school can discipline me if I do certain unacceptable things online, even if I'm not in school when I do them.***

Signed (pupil):

Date:

**Parent/carer agreement:** I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.

Signed (parent/carer):

Date:

## Appendix 4 agreement for staff, governors, volunteers and visitors

Happy in His loving care

### Acceptable use of the school's ICT facilities and the internet: agreement for staff, governors, volunteers and visitors

Name of staff member/governor/volunteer/visitor:

When using the school's ICT facilities and accessing the internet in school, or outside school on a work device, I will not:

- Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material)
- Use them in any way which could harm the school's reputation.
- Access social networking sites or chat rooms
- Take all reasonable steps to ensure the safety and security of school IT equipment which I take off site and will remove anything of a personal nature before it is returned to school.
- Take all reasonable steps to ensure that all personal laptops and memory devices are fully virus protected and that protection is kept up to date.
- Take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.
- Use any improper language when communicating online, including in emails or other messaging services.
- Install any unauthorised software or connect unauthorised hardware or devices to the school's network.
- Share my password with others or log in to the school's network using someone else's details.
- Share confidential information about the school, its pupils or staff, or other members of the community.
- Access, modify or share data I'm not authorised to access, modify or share.
- Promote any private business, unless that business is directly related to the school

***I confirm that I have read and understood the St Augustine Webster Catholic Voluntary Academy Internet and Acceptable Use Policy and that I will use all means of electronic communication equipment provided to me by the school and any personal devices which I use for school activity in accordance with the document. In particular:***

Any content I post online (including outside school time) or send in a message will be professional and responsible and maintain the reputation of the school.

To protect my own privacy, I will use a school email address and school telephone numbers (including school mobile phone) as contact details for pupils and their parents.

If I use any form of electronic communication for contacting pupils or parents I will use the school's system, never a personal account.

I will only use my personal mobile phone during non-teaching time; it will be kept on silent mode during lessons except in an emergency with the agreement of the head teacher or deputy head teacher.

I will never use my personal mobile phone or other personal electronic equipment to photograph or video pupils.

Taking photographs and videos will only be done with the permission of pupils and/or their parents for agreed school activities.

I understand that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.

I will report any accidental access to material which might be considered unacceptable immediately to my line manager and ensure it is recorded.

I will let the designated safeguarding lead (DSL) and Our Lady of Lourdes CMAT IT Network and Support Manager know if a pupil informs me they have found any material which might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly and ensure that pupils in my care do so too.

***I will follow school policy on compliance with the General Data Protection Regulations (GDPR). In particular:***

Confidential school information, pupil information or data which I use will be stored on a device which is encrypted or protected with a strong password. Computers will have a password protected screensaver and will be fully logged off or the screen locked before being left unattended.

I understand that I have the same obligation to protect school data when working on a computer outside school.

I will report immediately any accidental loss of personal or sensitive information so that appropriate action can be taken.

I understand that the school may monitor or check my use of IT equipment and electronic communications.

I understand that the school has the right to examine or delete any files that may be held on its computer system, to monitor any internet sites visited and emails exchanged and, if necessary to report anything which may constitute a criminal offence.

I understand that by not following these rules outlined in this Acceptable Use Policy I may be subject to the school's disciplinary procedures.

**Signed (staff member/governor/volunteer/visitor):**

**Date:**

## Appendix 5

### Filtering and monitoring standards – responsibilities of all school staff.

A safe online environment is essential for teaching and learning. Therefore, the filtering and monitoring standards in place are important to safeguard staff and students from harmful or inappropriate content.

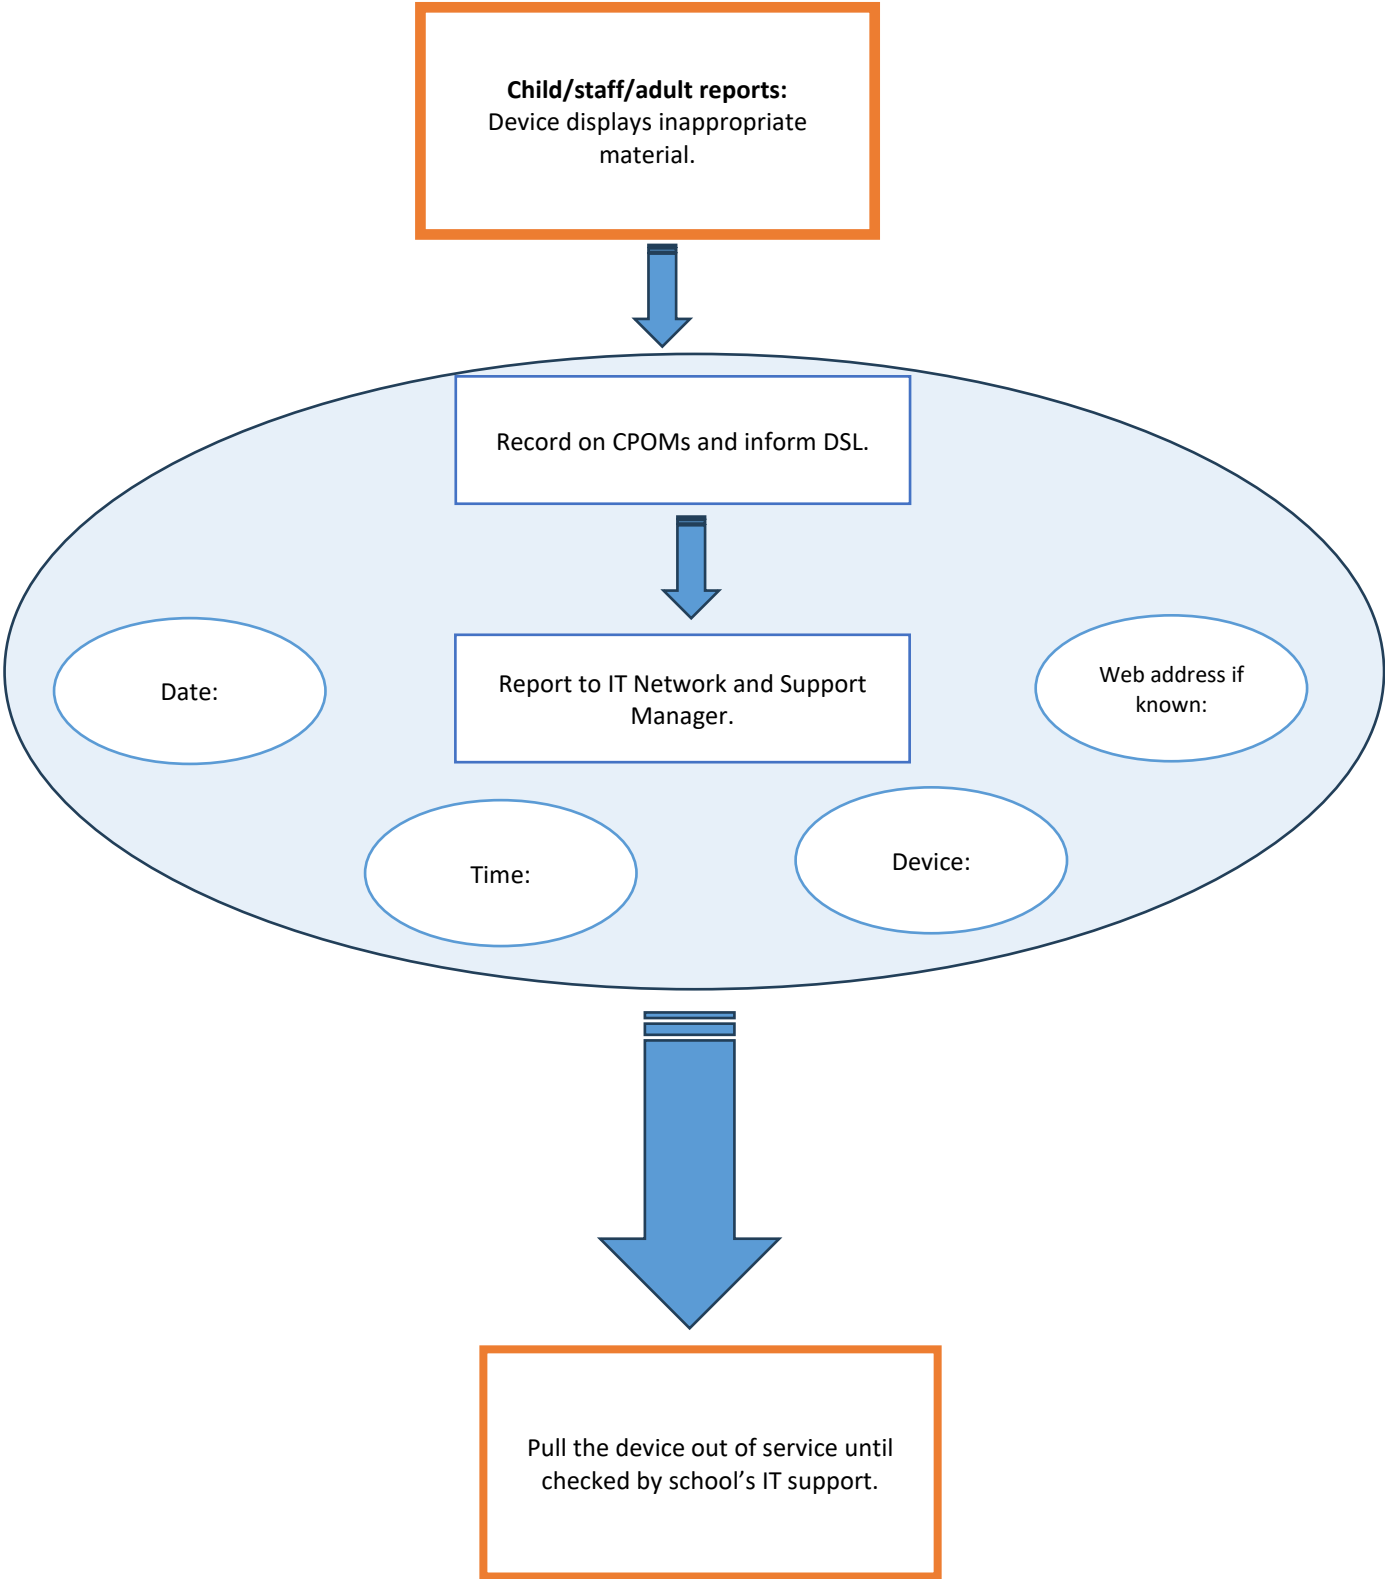

In line with the first standard, [system management](#), see below our key personnel within St Augustine Webster Catholic Voluntary Academy

- The lead individual within the Senior Leadership Team (SLT) is David Sidaway who you should contact with any queries relating to this topic.
- In line with the safeguarding policy, any safeguarding concern should be immediately directed to the Designated Safeguarding Lead (DSL), Kirsty Matthews.
- If you have queries regarding the implementation of the monitoring and filtering systems, please discuss this with our IT Network and Support Manager, Chris Cook.
- All staff in the school have the following responsibilities to ensure the standards are effectively implemented.

#### **You must:**

1. provide effective supervision of pupils when using school devices. This includes, 'physically' monitor children when they are using ICT equipment (moving around the space, visibly checking what pupils are doing)
2. maintain awareness of how devices are being used by students.
3. know how to report and record any concern where you have witnessed or suspect harmful content has been accessed.
4. approach your IT lead if you are unsure whether the filtering system is working successfully on your school device.
5. inform the SLT and IT lead if you can access unsuitable material.
6. notify the named leads if you are teaching topics which may create unusual activity or alerts.
7. discuss any unreasonable restrictions that affect teaching, learning or administrative tasks with your named leads.
8. promptly report failure or abuse of the system.
9. report any abbreviations or misspellings that allow access to restricted material.
10. be aware of the online safety, acceptable use and safeguarding policies.

# Filtering and monitoring flow chart

## Appendix 6: Glossary of cyber security terminology

These key terms will help you to understand the common forms of cyber-attack and the measures the school will put in place. They're from the National Cyber Security Centre (NCSC) [glossary](#).

TERM	DEFINITION
<b>Antivirus</b>	Software designed to detect, stop and remove malicious software and viruses.
<b>Breach</b>	When your data, systems or networks are accessed or changed in a non-authorized way.
<b>Cloud</b>	Where you can store and access your resources (including data and software) via the internet, instead of locally on physical devices.
<b>Cyber attack</b>	An attempt to access, damage or disrupt your computer systems, networks or devices maliciously.
<b>Cyber incident</b>	Where the security of your system or service has been breached.
<b>Cyber security</b>	The protection of your devices, services and networks (and the information they contain) from theft or damage.
<b>Download attack</b>	Where malicious software or a virus is downloaded unintentionally onto a device without the user's knowledge or consent.
<b>Firewall</b>	Hardware or software that uses a defined rule set to constrain network traffic – this is to prevent unauthorized access to or from a network.
<b>Hacker</b>	Someone with some computer skills who uses them to break into computers, systems and networks.
<b>Malware</b>	Malicious software. This includes viruses, trojans or any code or content that can adversely impact individuals or organisations.
<b>Patching</b>	Updating firmware or software to improve security and/or enhance functionality.
<b>Pentest</b>	Short for penetration test. This is an authorised test of a computer network or system to look for security weaknesses.
<b>Pharming</b>	An attack on your computer network that means users are redirected to a wrong or illegitimate website even if they type in the right website address.
<b>Phishing</b>	Untargeted, mass emails sent to many people asking for sensitive information (such as bank details) or encouraging them to visit a fake website.
<b>Ransomware</b>	Malicious software that stops you from using your data or systems until you make a payment.

TERM	DEFINITION
<b>Social engineering</b>	Manipulating people into giving information or carrying out specific actions that an attacker can use.
<b>Spear-phishing</b>	A more targeted form of phishing where an email is designed to look like it's from a person the recipient knows and/or trusts.
<b>Trojan</b>	A type of malware/virus designed to look like legitimate software that can be used to hack a victim's computer.
<b>Two-factor/multi-factor authentication</b>	Using 2 or more different components to verify a user's identity.
<b>Virus</b>	Programmes designed to self-replicate and infect legitimate software programs or systems.
<b>Virtual private network (VPN)</b>	An encrypted network which allows remote users to connect securely.
<b>Whaling</b>	Highly- targeted phishing attacks (where emails are made to look legitimate) aimed at senior people in an organisation.
